Functions - Change status

1. Changing status with be accessible from "Edit" screen and depending on the user security access

The screenshot shows a web application interface with a modal dialog box titled "Please Confirm". The dialog contains the text "Change Status to ?" and a dropdown menu. The dropdown menu is open, showing the following options: "Received", "In Progress", "On Hold", "Complete", and "Cancel Submission". A green button labeled "Change Status" is located in the top right corner of the dialog. The background of the application is dimmed, showing a form with fields for "Initial Reviewed By" (set to "ABSA"), "Type of Submission" (set to "New"), "Type of Design" (set to "Pressure Vessel"), and "Existing CRN". There is also a "Rush Service" checkbox which is checked. Below the form is an "Upload More Attachments" section with an "Add File" button and a table with columns: "File", "Document Type", "Upload For", and "Description (Optional)". At the bottom of the dialog are "Cancel", "Upload All Files", and "Update" buttons.

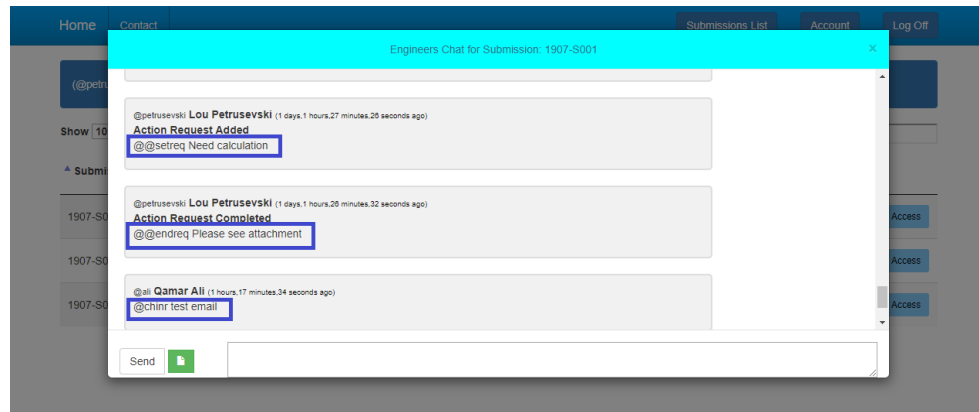

Functions - Chats

1. There are 3 chat groups: Administrator, Engineer and **Industry-Submitter (Pending)**

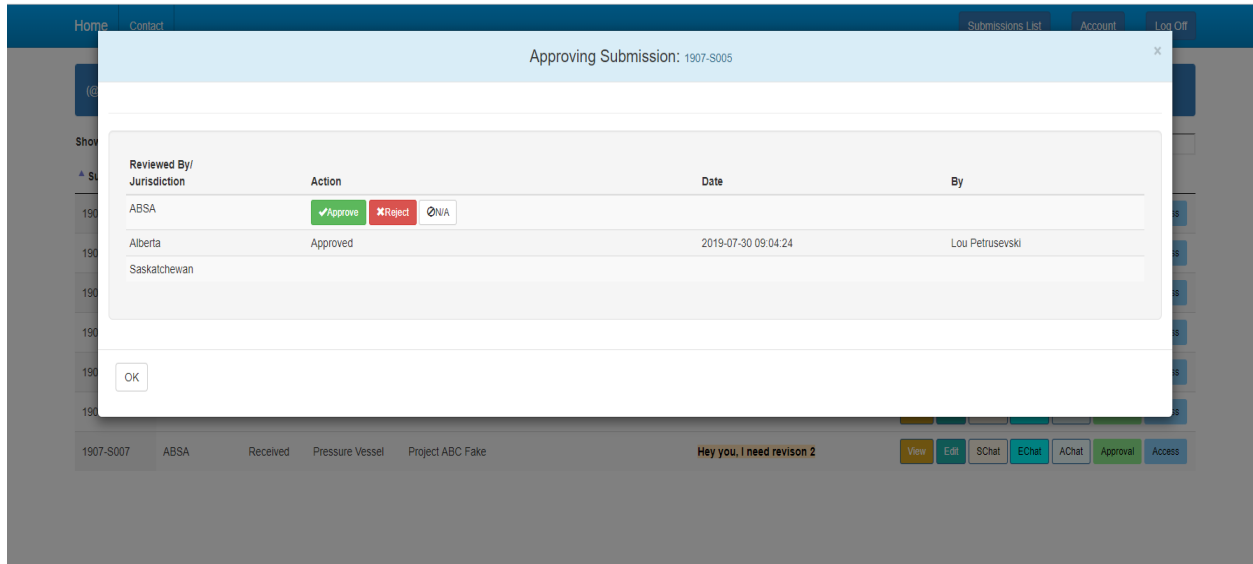

And also, it can be used to:

- @@SETREQ : To set submitter action request
- @@EndReq ; To remove/complete the action request
- To send chat notifications by using the user's chat-name

Functions – Approving Submission

1. User can approve the submission based on the security access.

Functions – External user access (Industry-Submitter)

1. A designated group will manage the Industry-Submitter access
